- * 22 gauge, availability only on request, minimum quantity required
- * Autumn Blue and Green English color available on request, allow 2-3 weeks extra time
- * Galvalume available on request, allow 2-3 extra weeks

Minimum slopes for roofing by paint system:

Textural III

A minimum slope of 10 degrees must be respected (approximately 2/12) for pre-painted steel roof profiles with the paint system of the series Textural III (paint system based on polyurethanes)

Textural IV

A minimum slope of 15 degrees must be respected (approximately 3/12) for pre-painted steel roof profiles with the paint system of the series TEXTURAL IV (paint system based on PVDF-Poly Vinylidene Fluoride)

For information :

10 degrees of slope = 17.63% of slope
15 degrees of slope = 26.79% of slope

12" x 1"= 4,8°
12" x 2"= 9,5°
12" x 3"= 1,4°
12" x 4"= 18,4°

A minimum slope of 2/12 (9 °) or 3/12 (1.4 °) is required in relation to the warranty (appearance of the paint) and not with the sealing of the system for the roof profiles MS Authentic, MS1, MS2 MS3 & MS4.
