

To support accurate specification and efficient installation, this document is divided into two complementary sections:

PROFILE FASTENING REQUIREMENTS (BY COVERAGE AREA)

This section provides the recommended number of screws per square foot for each MAC profile. It serves as a quick reference to help estimate fastening quantities based on project size, ensuring proper installation and optimal performance.

PRODUCTS	SCREW PER SQF	BRACKET

MAC SCREW SELECTION BY PROFILE

This section identifies the appropriate MAC screws for each profile, based on system design, installation method, and performance requirements. Each screw type has been carefully selected to ensure compatibility, durability, and long-term reliability.

Together, these tools simplify planning, reduce installation errors, and help ensure that every system is installed according to MAC's performance standards.

No. A067.500 | bag of 500
3 in round head screw

Harrywood Plus - Harrywood PLUS Block - Harrywood - MS-14 - Norwood - Norwood Mini - MS 1 - MS 1.1 - MS 1.2 - MS 2 - MS 3 - MS 4 - MS Authentic - Board and Batten - Reverse Board and Batten - Versa - Metal Block - Polymac - Fluted Panel 1.1 - Fluted Panel 1.2 - Fluted Panel 1.3

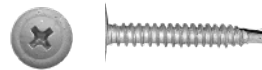

No. A058.250 | bag of 250
Screw K-LATCH 1 1/4 in, century High-end
