Customer address: _____	Project name : _____	
_____		

MAC Metal's architectural planks offer a great alternative to natural wood. They can bring your most creative ideas to life and transform your driveway, garden, or terrace into a distinctive, personal expression.

The architectural planks from MAC are adaptable and can be cut to lengths of up to 3 feet. They come with a series of components for easy installation, allowing you to create any design you like.

They are sold in minimum quantities of 4 planks, with each plank being 12 feet long and including two caps. Each order contains 2 drilling templates.

Fastening kits and additional caps are sold separately, so it's important to determine your needs.

Please fill out the following form and return it with your order to ensure you have everything you need for your installation.

Installation guides and videos are available on our website and on our YouTube channel at any time.
