

VERSA AXES

Rhythm at the Heart
of Architecture

NEW

With Versa Axes, MAC redefines the expression of metal cladding through a series of embossed patterns designed to create dynamic, structured, and contemporary façades.

PURE SURFACE EXPRESSION |

LINEAR BY NATURE. DYNAMIC BY DESIGN. |

Available in 8 distinct patterns, the collection interacts with light, texture, and repetition to bring movement and depth to architectural surfaces.

Depending on your architectural vision, you can:

- select specific patterns to create a precise graphic signature
- or combine all 8 models randomly for a more organic and evolving appearance

Available in custom lengths from 3 to 60 feet, Versa Axes adapts equally well to minimalist concepts and bold, high-impact façades.

DESIGNED FOR CONTEMPORARY ARCHITECTURE |

- Sculpted diagonal lines create a bold, dynamic expression
- Light becomes an integral design element, revealing depth and movement
- 8 exclusive patterns
- Custom lengths from 3 to 60 feet
*(Recommended optimal length: 10 feet)
- A truly distinctive architectural signature
